

RACHIT KAKKAD

FULL STACK DEVELOPER & AI ENGINEER

[LinkedIn](#) | [Github](#) | [Youtube](#) | [Portfolio](#) | [LeetCode](#)

kakkadrachit1@gmail.com

+91 82002 50915

Kalol, Gujarat, India

SKILLS

Languages & Frameworks

Python, JavaScript (ES6+), TypeScript, C++, C, React.js, Node.js, FastAPI, Flask, Tailwind CSS, HTML5, CSS3

Databases & Backend

MongoDB, Supabase, Redis, Prisma, REST APIs, Socket.io, JWT, Express.js

AI & Machine Learning

Whisper, TensorFlow, PyTorch, scikit-learn, OpenCV, NumPy, Pandas

Cloud & DevOps

AWS, Google Cloud, Firebase, Vercel, Netlify, GitHub Actions, Git, GitHub, Docker, Render

Tools & Platforms

Postman, Figma, Notion, VS Code, npm

HACKATHONS & AWARDS

1. 2nd Place – ElectroSphere 2K26

ElectroSphere Software Edition | Jan 2026 | Swaminarayan University, Kalol

Secured 2nd place in Software Edition. Built ThreatLens – ethical static code analysis platform with AST-based vulnerability detection.

[Certificate](#) | [DOCS](#) | [Live](#) | [Github](#) | [Youtube](#)

2. Rank 4 Finalist – Digital Identity Hackathon

National Digital Identity & Innovation Hackathon | 2025 | IIT Madras

Led a 5-member team to Round 3 at a national-level competition. Architected SecureID Nexus – zero-trust identity system with JWT asymmetric workflows.

[Certificate](#) | [DOCS](#) | [Github](#)

3. Finalist – Odoo×Gujarat Vidhyapith Hackathon

Enterprise Track Hackathon | March 2026 | Gujarat Vidhyapith, Ahmedabad

Built PLM Flow – dual-database failover PLM system with real-time SLA tracking and ECO approval workflows.

[Certificate](#) | [DOCS](#) | [Live](#) | [Github](#)

EDUCATION

Swaminarayan University, Kalol 2025 - 2029

Bachelor of Engineering (BE) in Computer Engineering

Shakti Higher Secondary, Rajkot 2024 - 2025

Higher Secondary Education

EXPERTISE & SUMMARY

First-year B.Tech Computer Science student at Swaminarayan University with hands-on experience building production-grade AI and full-stack systems. Shipped 9+ projects across blockchain, cybersecurity, and enterprise SaaS. Secured 2nd place at ElectroSphere 2K26 and Rank 4 Finalist at IIT Madras national hackathon. Founder of COS – a local-first AI system running 8 models entirely on-device. GSoC 2026 applicant and active open source contributor.

CERTIFICATIONS

- | | |
|-------------------------------|--------------------------|
| 1. ElectroSphere 2K26 | 7. Gemini Specialization |
| 2. Digital Identity Hackathon | 8. Gen AI Mastery |
| 3. Odoo Hackathon | 9. ML Foundations |
| 4. HackCrux Hackathon | 10. React JS |
| 5. OpenPools Hackathon | 11. MongoDB Essentials |
| 6. Dev Heat Hackathon | 12. Git & GitHub |

EXPERIENCE

Freelance Full-Stack Developer – AI Analytics Platform

Jun 2025 – Oct 2025

- Built AI-powered analytics platform (React, Node.js, MongoDB)
- Developed REST APIs and real-time dashboards for insights
- Optimized performance and deployed scalable system

Projects

1. GridSaathi [DOCS](#) | [Github](#)

Zero-Trust Identity System with Asymmetric JWT Authentication

2. ThreatLens [DOCS](#) | [Live](#) | [Github](#)

Static Code Analysis Platform Using AST for XSS & SQLi Detection

3. PLM Flow [DOCS](#) | [Live](#) | [Github](#)

Enterprise PLM with Dual-DB Failover & SLA Monitoring

4. CareerLY [DOCS](#) | [Github](#)

CareerLens – ML-Based Job Role Prediction Platform with Personalized Learning Recommendations
